Protein Structure & Molecular Enzymology

Vol. 1385, 1998

BIOCHIMICA ET BIOPHYSICA ACTA

BBA

Cumulative Contents

BBA is cited in: Current Contents/Life Sciences - Biological Abstracts - Chemical Abstracts - Index Chemicus - Index Medicus/MEDLINE - Cambridge Scientific Abstracts (CSA) - Excerpta Medica (EMBASE) - Reference Update - Current Awareness in Biological Sciences (CABS)

Information for Contributors vii

Short sequence-paper

Sequence, chromophore extraction and 3-D model of the photoactive yellow protein from *Rhodobacter sphaeroides*
R. Kort, M.K. Phillips-Jones, D.M.F. Van Aalten, A. Haker, S.M. Hoffer, K.J. Hellingwerf and W. Crielaard (Netherlands, UK, USA) 1

Regular papers

NMR and luminescence studies on the formation of ternary adducts between HSA and Ln(III)–malonate complexes (Ln = Eu, Gd, Tb)
S. Aime, M. Bettinelli, M. Ferrari, E. Razzano and E. Terrano (Italy) 7

Antibodies specific for (6-4) DNA photoproducts: cloning, antibody modeling and construction of a single-chain Fv derivative
H. Morioka, H. Miura, H. Kobayashi, T. Koizumi, K. Fujii, K. Asano, T. Matsunaga, O. Nikaido, J.D. Stewart and E. Ohtsuka (Japan, USA) 17

Role of the γ chain Ala–Gly–Asp–Val and Aα chain Arg–Gly–Asp–Ser sites of fibrinogen in coaggregation of platelets and fibrinogen-coated beads
Q. Liu, M.M. Rooney, A. Kasirer-Friede, E. Brown, S.T. Lord and M.M. Frojmovic (Canada, USA) 33

Studies on the chymotrypsin-catalysed hydrolysis of resorufin acetate and resorufin bromoacetate
T.M. Kitson (New Zealand) 43

Characterization of the structural and functional changes of hemoglobin in dimethyl sulfoxide by spectroscopic techniques
C. Liu, A. Bo, G. Cheng, X. Lin and S. Dong (China) 53

Binding of GTP and GDP induces a significant conformational change in the GTPase domain of Ffh, a bacterial homologue of the SRP 54 kDa subunit
M. Farmery, B. Macao, T. Larsson and T. Samuelsson (Sweden) 61

Apomyoglobin folding intermediates characterized by the hydrophobic fluorescent probe 8-anilino-1-naphthalene sulfonate (ANS)
I. Sirangelo, E. Bismuto, S. Tavassi and G. Irace (Italy) 69

Agrobacterium tumefaciens β-glucosidase is also an effective β-xylosidase, and has a high transglycosylation activity in the presence of alcohols
D.K. Watt, H. Ono and K. Hayashi (Japan) 78

^{1}H NMR study of dynamics and thermodynamics of acid–alkaline transition in ferric hemoglobin of a midge larva (*Tokunagayusurika akamusi*)
K. Koshikawa, Y. Yamamoto, S. Kamimura, A. Matsuoka and K. Shikama (Japan) 89

P450 isoforms in a murine macrophage cell line, RAW264.7, and changes in the levels of P450 isoforms by treatment of cells with lipopolysaccharide and interferon-γ
M. Nakamura, S. Imaoka, F. Amano and Y. Funae (Japan) 101

Theoretical evidence of the existence of a diazafulvene intermediate in the reaction pathway of imidazoleglycerol phosphate dehydratase: design of a novel and potent heterocycle structure for the inhibitor on the basis of the electronic structure-activity relationship study
K. Gohda, Y. Kimura, I. Mori, D. Ohta and T. Kikuchi (Japan) 107

Dissociation kinetics of hemocyanin from *Octopus vulgaris*
R. Favilla, F. Del Signore, E. Dainese, M. Beltramini and B. Salvato (Italy) 115

Purification, molecular characterization and catalytic properties of a *Pseudomonas fluorescens* enzyme having cholinesterase-like activity
D. Rochu, C. Rothlisberger, C. Taupin, F. Renault, J. Gagnon and P. Masson (France) 126

Spontaneous inactivation of human lung tryptase as probed by size-exclusion chromatography and chemical cross-linking: dissociation of active tetrameric enzyme into inactive monomers is the primary event of the entire process
A. Kozik, J. Potempa and J. Travis (Poland, USA) 139

Mechanism of NADH transfer among dehydrogenases
W.M. Arias, H. Pettersson and G. Pettersson (Sweden) 149
Conformational stability studies of the pleckstrin DEP domain: definition of the domain boundaries
A. Kharrat, S. Millevoi, E. Baraldi, C.P. Ponting, P. Bork and A. Pastore (Germany, UK) 157
Identification of holocarboxylase synthetase (HCS) proteins in human placenta
M. Hiratsuka, O. Sakamoto, X. Li, Y. Suzuki, Y. Aoki and K. Narisawa (Japan) 165

Information for Contributors *ix*

Preface
A. Schellenberger (Germany) 173

Thiamin Diphosphate - General Aspects 175

Sixty years of thiamin diphosphate biochemistry
A. Schellenberger (Germany) 177
Transition-state theoretical interpretation of the catalytic power of pyruvate decarboxylases: the roles of static and dynamical considerations
J. Hong, S. Sun, T. Derrick, C. Larive, K.B. Schowen and R.L. Schowen (USA) 187
Thiamin metabolism and thiamin diphosphate-dependent enzymes in the yeast *Saccharomyces cerevisiae*: genetic regulation
S. Hohmann and P.A. Meacock (Belgium, Sweden, UK) 201
Activation of thiamin diphosphate in enzymes
G. Hübner, K. Tittmann, M. Killenberg-Jabs, J. Schäffner, M. Spinka, H. Neef, D. Kern, G. Kern, G. Schneider, C. Wikner and S. Ghisla (Germany, Sweden, USA) 221
Thiamin-dependent enzymes as catalysts in chemoenzymatic syntheses
U. Schörken and G.A. Sprenger (Germany) 229
Theoretical studies on the electronic and energetic properties of the aminopyrimidine part of thiamin diphosphate
R. Friedemann and H. Neef (Germany) 245

Pyruvate Decarboxylase 251

Structure-function relationships and flexible tetramer assembly in pyruvate decarboxylase revealed by analysis of crystal structures
W. Furey, P. Arjunan, L. Chen, M. Sax, F. Guo and F. Jordan (USA) 253
Subunit structure, function and organisation of pyruvate decarboxylases from various organisms
S. König (Germany) 271
Regulation of thiamin diphosphate-dependent 2-oxo acid decarboxylases by substrate and thiamin diphosphate.Mg(II) – evidence for tertiary and quaternary interactions
F. Jordan, N. Nemeria, F. Guo, I. Baburina, Y. Gao, A. Kahyaoglu, H. Li, J. Wang, J. Yi, J.R. Guest and W. Furey (UK, USA) 287
Application of α-keto acid decarboxylases in biotransformations
H. Iding, P. Siegert, K. Mesch and M. Pohl (Germany) 307
Structure and properties of pyruvate decarboxylase and site-directed mutagenesis of the *Zymomonas mobilis* enzyme
J.M. Candy and R.G. Duggleby (Australia) 323

2-Oxo acid Dehydrogenases 339

The pyruvate dehydrogenase complex from thermophilic organisms: thermal stability and re-association from the enzyme components
S. Witzmann and H. Bisswanger (Germany) 341
The pyruvate dehydrogenase multi-enzyme complex from Gram-negative bacteria
A. de Kok, A.F. Hengeveld, A. Martin and A.H. Westphal (Netherlands) 353
Gene and subunit organization of bacterial pyruvate dehydrogenase complexes
U. Neveling, S. Bringer-Meyer and H. Sahm (Germany) 367
Cloning, structure, chromosomal localization and promoter analysis of human 2-oxoglutarate dehydrogenase gene
K. Koike (Japan) 373

Transketolases 385

Crystallography and mutagenesis of transketolase: mechanistic implications for enzymatic thiamin catalysis
G. Schneider and Y. Lindqvist (Sweden) 387

Acetolactate Synthases and Acetohydroxyacid Synthases 399

Biosynthesis of 2-aceto-2-hydroxy acids: acetolactate synthases and acetohydroxyacid synthases
D. Chipman, Z. Barak and J.V. Schloss (Israel, USA) 401
